Introduction to the content.

Defining Tech Intensity

Satya Nadella
Chief Executive Officer,
Microsoft

[PRE-RECORDED SESSION] What is “tech intensity” and why is it important? Hear from Satya Nadella himself on the necessity of having a tech intensive mindset in today’s rapidly changing world.

Tech Intensive Leadership

Dana Barnes
Vice President, State & Local
Government Enterprise
Operating Unit,
Microsoft

What does it take for a government leader to lead with confidence in today’s digital world? Microsoft wants to help set you up for success and provide some thought starters for you to lead your digital transformation efforts with confidence and a “tech intensity” philosophy. We’ll hear from experts on how to tackle some of today’s most challenging problems and how to anticipate the needs of your customers.

**Tech Intensity in Action:
San Diego County
Sheriff's Department &
Coptivity**

Ashish "Yosh" Kakkad
CIO, San Diego County
Sheriff's Department
County of San Diego

How is tech intensity applied in the real world? Let's take a look at a stellar example of tech intensity in action with Ashish "Yosh" Kakkad, CIO of the San Diego County Sheriff's Department. We'll dive into a 360 look at how tech intensity helped Yosh create an innovative solution to better serve others.
