Keynote: Embrace Open Source and it's Culture as an Enterprise - Nat Friedman CEO GitHub -25 min-									
9:00	10:00	Stefanie Chiras - SVP & General Manager, Red Hat Enterprise Linux Business Unit - Business Benefits of Open Source Collaboration Between Red Hat and Microsoft -25 min-							
10:00	10:45	Title	The state of Linux on Azure	Red Hat and Microsoft - container and kubernetes options for Openshift on Azure		Keynote: Data and AI by Sunil plus session 1: 1. NoSQL 101: what you need to know when moving from relational databases to Azure Cosmos DB		Kubernetes: the past, the present, the future?	
		Speaker	John Gossman -Distinguished engineer Jose Miguel Parrella	Mike Evans		Sunil Kamath, Principal Director, Program Management, Azure Open Source Databases Theo van Kraay, Program Manager, Azure Cosmos DB		Brendan Burns	
		Q&A	Microsoft Toni Willberg	Red Hat		Microsoft		FD + Speaker	
10:45	11:30	Title	SUSE and Microsoft Azure operate on Trust to deliver mission critical SAP solutions	From Waterfall to Agile. Microsoft's Not-So-Easy Evolution into the World of Dev Ops		2. Three reasons MongoDB and Cassandra developers should consider Azure Cosmos DB 3. Why Azure is the best destination for Postgres		LiveData with Flow – Introduction and use cases	
		Speaker	Julie Baldwin - Snr Director Cloud EMEA & APJ	Abel Wang		Julien Michel; Sr. Technical Specialist Umur Cubukcu		Gaurav Goyal, Cesar Valiente, Sigute Kateivaite	
		Q&A	Suse	Microsoft		Microsoft		FD + Speaker	
11:30	12:15	Title	Hybrid Management capabilities for open source solutions	Event-Driven Applications (Open Source + Azure)".		4. Tip and tricks MySQL 5. Building a scalable and secure application with Azure Database for MySQL		Rustlang at Microsoft	
		Speaker	Thomas Maurer	Marie Hoeg Dennis Zielke		Andrea Lam Manish Kumar		Ryan Levick (DE)	
		Q&A	Microsoft	Dennis Zielke		Microsoft		FD + Speaker	
12:15	13:00	Break							
13:00	13:45	Title	Leveraging open source with Ubuntu Pro on Azure: Economics, Velocity and Security	Best Practices for Production OSS Workloads with Azure App Service		Hyperscale Citus		MS Developer Tooling: A perspective from the experts. VS Code Online (+ GitHub Mobile? + GH "workspaces"?) Powershell	
		Speaker	Christian Reis VP Public Cloud	Byron Tardif SENIOR PROGRAM MANAGER		Claire Giordano, Principal Program Manager Hyperscale (Citus) and Marco Slot, Principal Software Engineer Hyperscale (Citus)		Scott Hanselman + Thomas Maurer	
		Q&A	Canonical	Microsoft		Microsoft		FD + Speaker	
13:45	14:30	Title	Prepare for the moments that matter: a crash course on Chaos Engineering	Java Applications on Azure? Pivotal		Latest Open Source Innovations from Databricks		Git for Windows	
		Speaker	Patrick van der Bleek	Bas Lemmens General Manager Tanzu EMEA		Jules Damji Seveloper Advocate		Johannes Schindelin	
		Q&A	Gremlin	Tanzu		Databricks		FD + Speaker	
14:30	15:15	Title	Bursting to the cloud with Consul and Nomad on Azure	Multicloud app development. How you build them		Elasticsearch for Your Data		Git at Scale for Everyone	
		Speaker	Erik Veld (Developer Advocate at Hashi)	Ulrich Homann CVP & Distinguished Architect		Steve Mayzak, CTO		Derrick Stolee	
		Q&A	Hashicorp	Microsoft		Elastic		FD + Speaker	
15:15	16:00	Title	"Continuing the CoreOS legacy in Azure"	Containerize applications with Kubernetes on Azure		The Enterprise Cloud Journey: Using Redis to Migrate to Azure		Dependency management and security on GitHub	
		Speaker	Andy Randall, VP Business Development	Gabe Monroy		Alvin Richards - Chief Product Officer		Julian Tibble (Senior Engineering Manager)	
		Q&A	Kinvolk	Microsoft		Redis Labs		FD + Speaker
