

Microsoft Azure Lunch & Learn Webinars

17th February 2021

Introduction to Azure on the OCRE Framework

Mark Fitzsimons
Senior Education Solutions Specialist – WE HQ
markfitz@microsoft.com

Agenda

Procuring Azure on OCRE IaaS+ framework

Education relevant Azure services

Research Compute Tour

Wrap up

OCRE | Open Clouds
for Research
Environments

Microsoft OCRE Approach

MCS Digital Advisory Services

Azure Marketplace

The logo for BECHTLE, consisting of a green parallelogram shape with the word "BECHTLE" written in white, bold, sans-serif capital letters inside it.

OCRE Azure Resellers

Microsoft Cloud

Azure ProDirect

360° Azure Support

Reactive + Proactive
Support

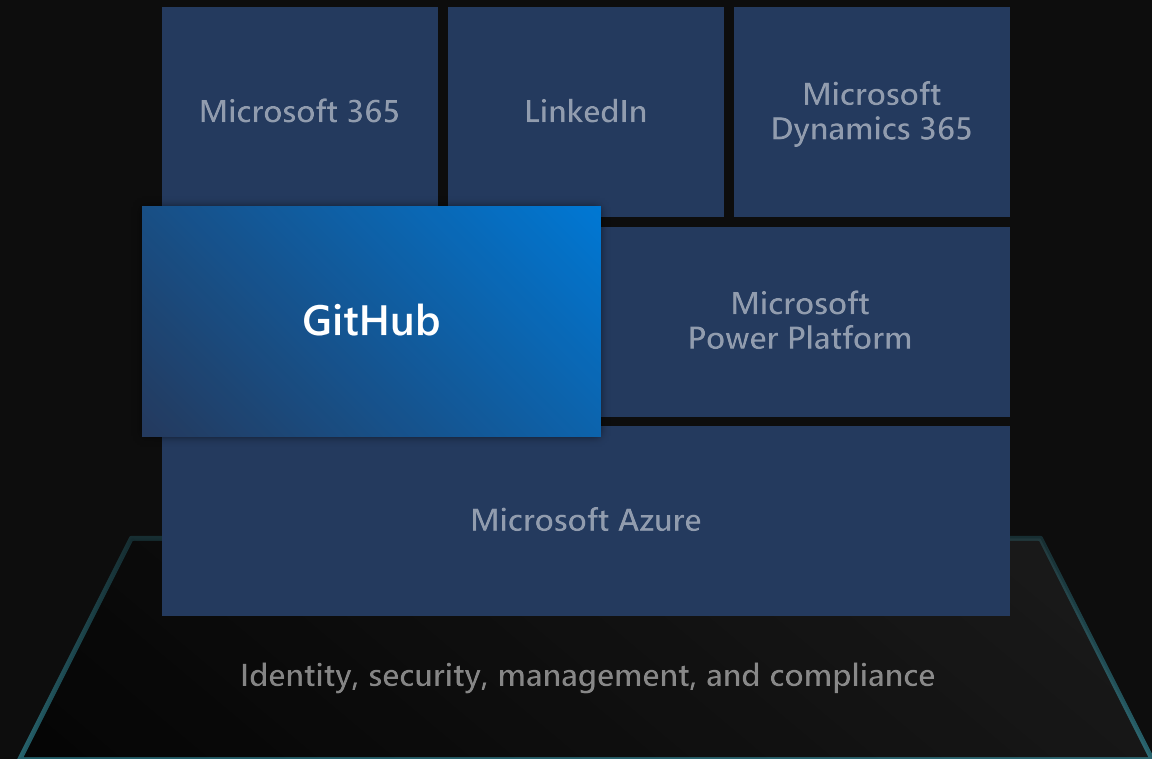

Access to a pool of
ProDirect Delivery
Managers

Modernize your
workloads

Microsoft Cloud

Microsoft Cloud

Deal Structure – Volume Licencing

MBSA Master Agreement

CASA Master Agreement

GEANT Signature

**Azure Only
SCE**

**Azure Only
EES**

End Customer Signature
Min Order Value \$1200

Amendment including Discount Transparency statement and Azure Commitment Discount

Note: Customer can sign multiple enrolments

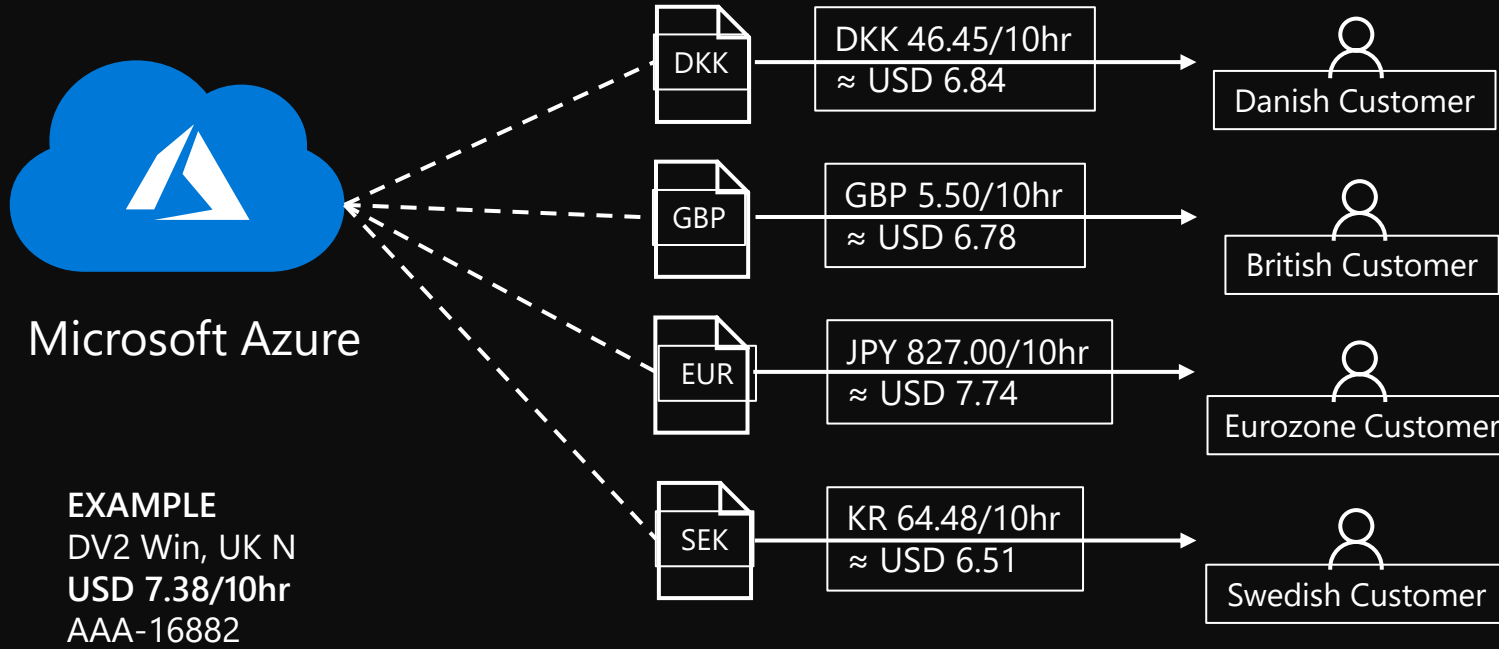

**Product
Terms**

**Online Services
Terms OST**

**Online
Services DPA**

Foundational contractual components

Azure Pricing in the Enterprise Agreement

Local currency price lists*

Customers local currency Fx rate fixed for enrolment term

Customer Baseline price is fixed for enrolment term

OCRE discount applied to new price if it is lowered

*Exchange rates shown are timebound and used for example purposes only

OCRE Azure Concessions

Sign an enrolment up to month 48

Concessions will cease at expiry or December 2025 or whichever comes earlier

Discount on all Azure PAYG metered SKU prices

15% data egress waiver – zones 1, 2 & 3

20% discount on Azure Professional Direct Support SKU prices

Includes Step-up from Azure Standard Support

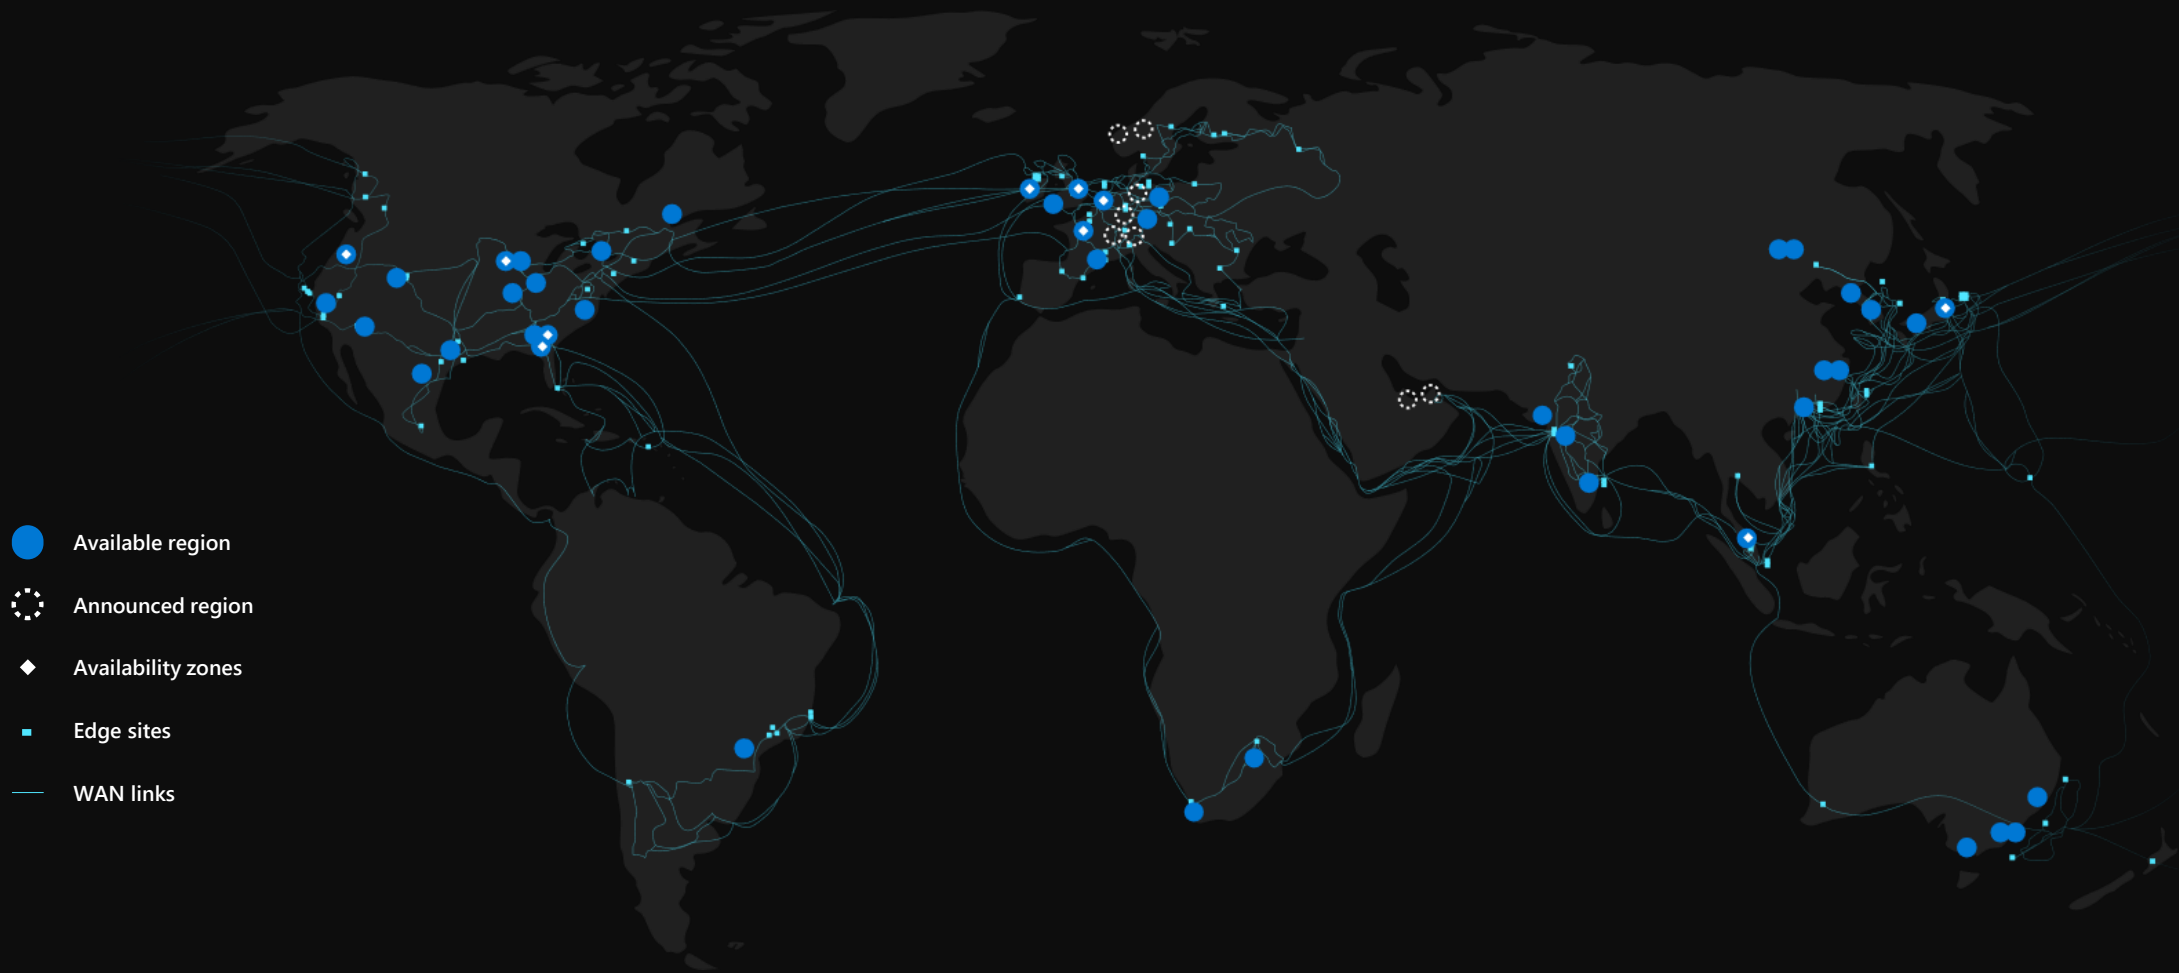

65% discount on ExpressRoute Unlimited SKU prices (zone 1)

For 12 months from official framework commencement date

More regions than any other cloud provider

60+ Regions worldwide

165K+ Miles of fiber and subsea cable

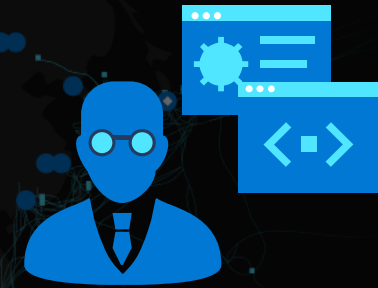

170 Network PoPs

**Best performing
cloud network**

**Zero Trust based
network security**

**Developer
ready**

Five reasons to choose Azure

#1

Supports open-source technologies

#2

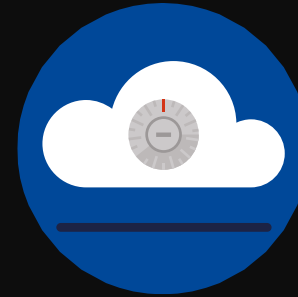

Build and deploy ML models from the data centre to the edge

#3

Aids global collaboration on exabyte-scale data sets

#4

Secures data from the cloud to the edge

#5

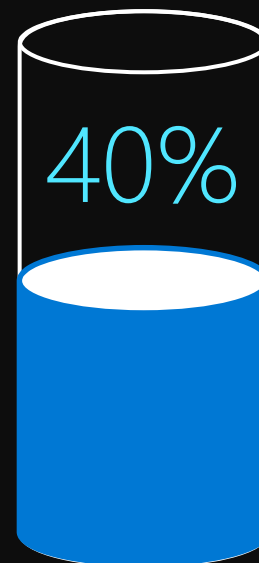

Delivers true HPC-as-a-service

Save with Azure Hybrid Benefit

Re-use Windows Server and SQL Server licenses with Software Assurance in Azure

- ✓ Azure Virtual Machines
- ✓ Azure SQL Database
- ✓ Azure Dedicated Host
- ✓ Azure VMware Solutions

Save 40% with Azure Hybrid Benefit

Save 80% with Azure Hybrid Benefit + Reserved Instances

Azure Reservation Families

App Service

Azure Cache for Redis

Azure Database for PostgreSQL

Azure Database for MySQL

Azure Database for MariaDB

Azure Synapse Analytics

Cosmos DB

Databricks

Data Explorer

Disk Storage

Dedicated Host

Software plans

Storage

SQL Database

Virtual machines

Azure Spot VMs

Scalable compute capacity at deep discounts (up to 90%*)

Capped prices

Pay up to the price you agree to in advance

Deployment options

Run interruptible workloads at scale on VMs and VMSS

Cost savings (Linux and Windows)

Unique Azure pricing and benefits with Windows Server workloads

*Actual discounts may vary based on region, VM type, and Azure compute capacity available when the workload is deployed.

Get free Extended Security Updates only on Azure

THREE YEARS

of security updates for your 2008/R2 workloads from date of end of support*

75%

of the Server license cost to buy Extended Security Updates on-premises or on other clouds

Save even more with Azure Hybrid Benefit

* July 2019 for SQL Server 2008/R2 and January 2020 for Windows Server 2008/R2

Azure Lab Services

- Student Computer Labs from anywhere and on any device.
- Easy deployment by instructors who can set up labs for their courses.
- Transparent "all-inclusive" pricing model for easy processing & budgeting.

- Simple to use, wizard-based - up and running in a few minutes
- Cost-effective – No expensive hardware costs.
- Pay only for the time the machines are being used.
- Schedule availability and set quotas.
- Flexible – Almost any type of machine and hardware can be used by your students, even their own (+ VM Images/OS choices/sizes etc.)

[Azure Lab Services](#)

Windows Virtual Desktop

Enable a secure, remote desktop experience from anywhere

Deliver Windows 10 on
any device, anywhere

Built-in intelligent
security

Deploy and scale
in minutes

Reduce cost using
existing licenses
and pay only for
what you use

Strong partner ecosystem that helps you migrate and modernize

Azure VMware Solution

Run VMware workloads natively on Azure

Gain continuity, speed and scale with cloud infrastructure

Leverage your existing VMware skills and tools

Modernize apps at your own pace with Azure services

Most cost-efficient way to run Windows Server and SQL

Fastest path to cloud

Azure is the ideal cloud for data analytics workloads

Open source analytics

HDInsight
Enterprise-grade service for open source analytics

Hadoop

Spark

Kafka

Azure analytics

Ingest
Azure Data Factory

Prep
Azure Databricks

Explore
Azure Data Explorer

Streaming
Azure Stream Analytics

IoT
Azure Event Hubs

Share
Azure Data Share

Store
Azure Data Lake Storage

Azure HDInsight

Azure Synapse

Best of open source + Azure for end-to-end analytics

Gain insights across your entire enterprise

Visualize and investigate the attack chain with cloud-native SIEM

SIEM | Azure Sentinel

Multi-cloud

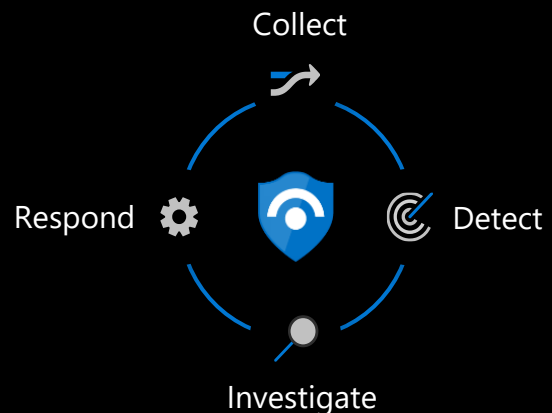

Third-party

User environment

Hybrid

- Collect security data at cloud scale and integrate with your existing tools
- Leverage AI to detect emergent threats and reduce alert fatigue by 90 percent
- Respond rapidly with built-in orchestration and automation

The Cloud Democratizes Research

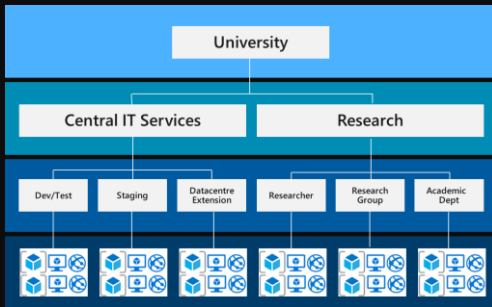

Everyone has
super compute
capabilities

Enabling new
levels of
collaboration

From PhDs to
Citizen
Scientists

Azure for Research Framework – Central IT Portal

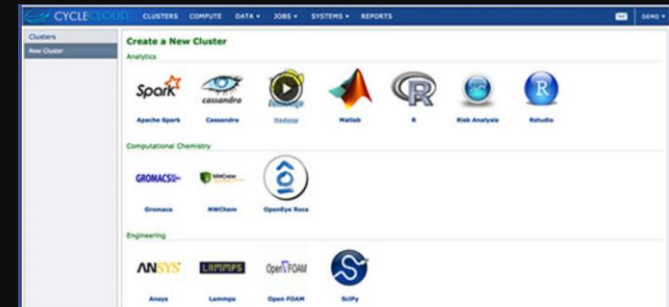

Central Research Management

Research structure, billing, account and delegation management. Central Governance of Research services is a key aim of most Universities.

Automation for Research

Immediate access to resources. No procurement process or pre-build saves time that can be directed to actual research

On demand Research services

Researchers able to select their own resources without having to learn Azure or connect with Central IT

Supporting your grant applications

- **Microsoft can support you** by way of a supporting letter you may include on your application.
- **Customers or partners can claim** expenses related to Microsoft services or products for research efforts.
- **Eligible costs** are generated by activities fully related to the funded project actions. Typical length of projects is 3 to 5 years.
- **Your Microsoft team can support you** throughout the application process and any continued activity.

Achieve more with Azure HPC

Purpose-built HPC

A full range of CPU and GPU capabilities that help applications scale to 80K+ cores

Fast, secure networking

Fast InfiniBand inter-connects as well as edge-to-cloud connectivity

High performing storage

A range of storage capabilities to support simple-to-complex storage needs

Workload orchestration

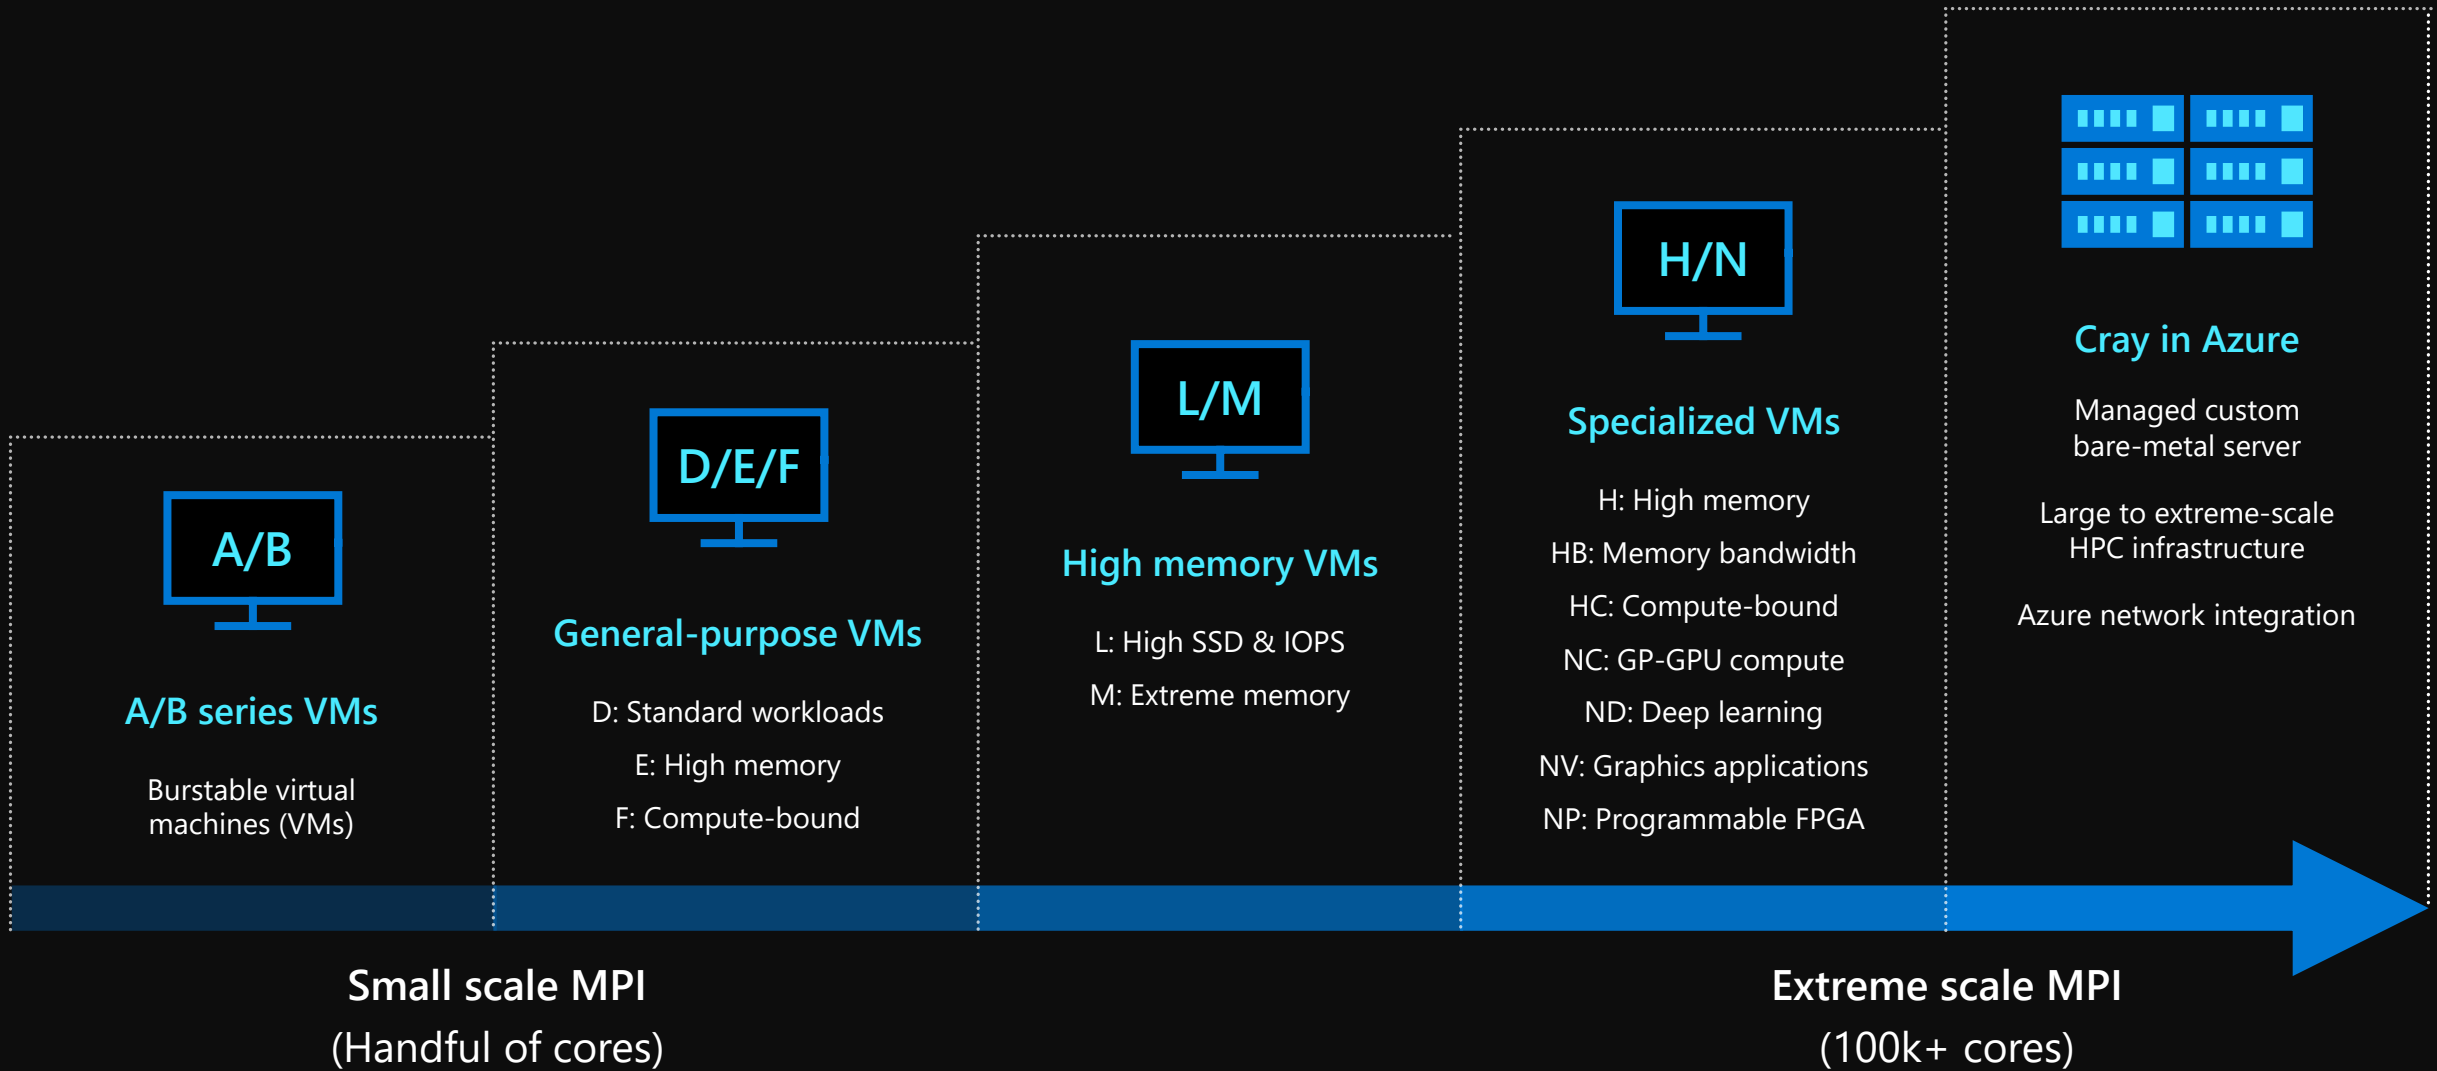

End-to-end workflow agility using known, familiar tools and processes

Intelligence services

AI, machine learning, and deep learning at supercomputer scale

Solve any HPC, AI workload—at any scale

Orchestrate your workloads

Scale up your environment

Azure Virtual Machine Scale Sets

Automatically scale your application as resource demand changes for high availability and resiliency

Azure Batch

Enable cloud-scale job scheduling and compute management to run massive parallel and high-performance compute batch jobs

Manage your HPC workload

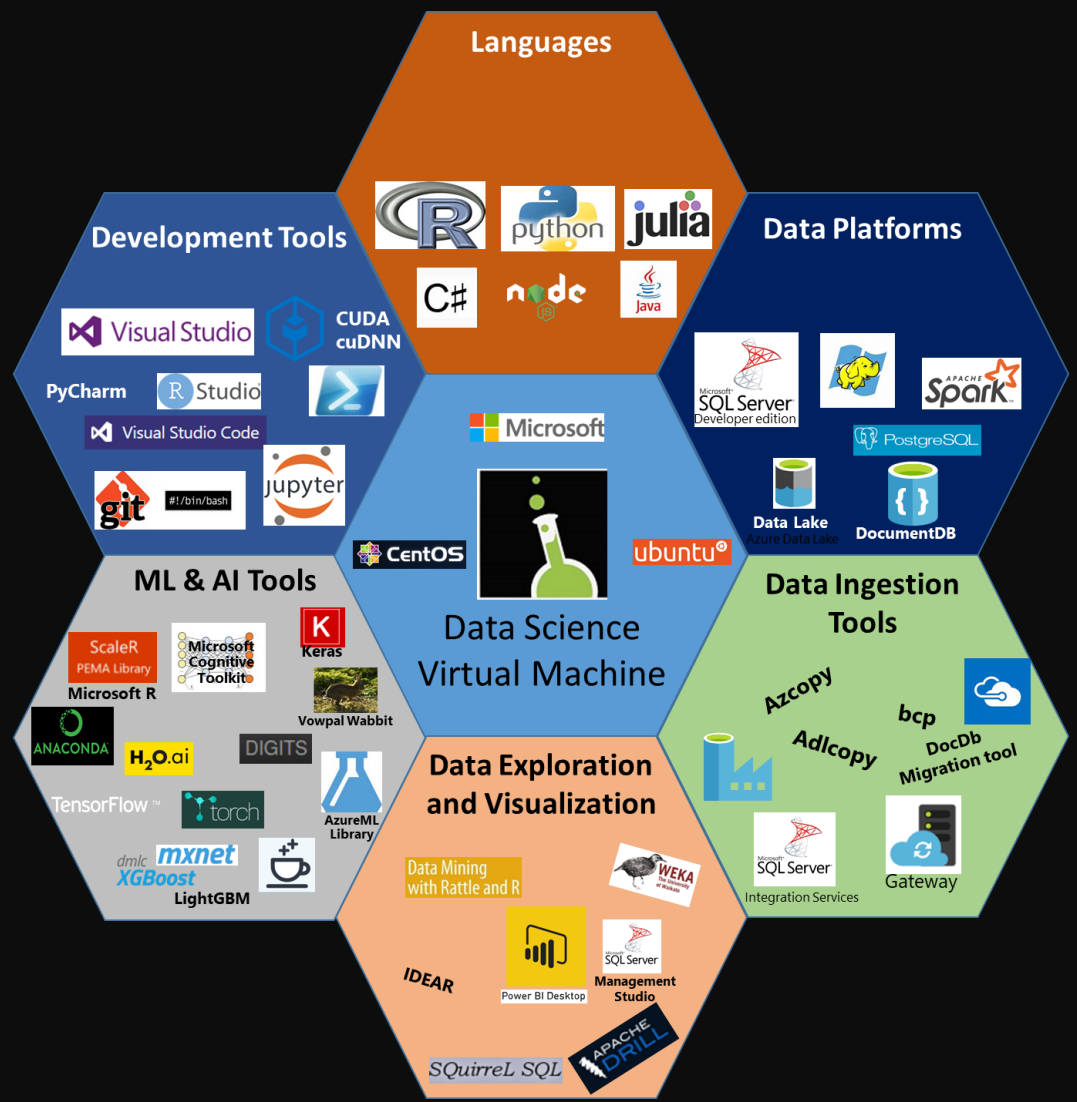

Azure CycleCloud

Create, manage, operate, and optimize HPC and big compute clusters of any scale with HPC burst and hybrid clusters

Microsoft Azure Differentiators

Cloud Strategy

Use AAD to manage Azure resources and services e.g. RBAC etc.

Require a true Hybrid Cloud solution for data sovereignty and managing Physical, Virtual and Container workloads with Azure Arc.

Reduce shadow IT and manage separate commercial agreements with the same cloud vendor centrally.

Comprehensive cost management and reporting solution.

Reduce Costs

Leverage HUB to lower my Windows and SQL consumption costs.

Reduce support costs for Windows Server 2007 and SQL server 2008 with Azure extended support.

Provide Windows 10 VDI services for staff and students and leverage my M365 Student Use Benefits.

Pricing for services to remain the same for the duration of my contract i.e. no monthly price variance or FX rate impacts.

Accelerate Migration

Leverage Azure Site Recovery to migrate physical servers.

Accelerate Web App migrations with App Migration Service to Azure App Service.

Modernise SQL estate with SQL Server Managed Instances.

Require the most performant HPC and specialised compute and services

Upcoming Lunch and Learn Webinar Series

Wednesday
24/2

Building a scalable cloud architecture

Wednesday
3/3

Get the support you need with Azure ProDirect

Wednesday
10/3

Hybrid learning made easy with LinkedIn

Wednesday
17/3

GitHub and the future of software

All sessions are scheduled for 12:30 CET /11:30 GMT

Register at <https://aka.ms/OCRE>
